

The Kreeger Kronicles
November 2022

After living so many years in Chile, where earthquakes are an almost constant concern, we are once again adjusting to life in Florida where the occasional concern is the hurricane. We spent the night of the hurricane with our youngest daughter Carol and her family. They lost power at their house at about six in the evening and we could tell that winds were getting more and more powerful. But we thank the Lord that we all came through the storm without any problems. Our manufactured home came through without any damage or loss of power. Thankfully our children all fared well. Yet, it saddens our hearts at the destruction that many brothers and sisters are experiencing further south from us. As with so many of these disasters, we pray the Lord will use this to reach many for Himself.

Two weeks ago, Sharon saw both of her oncologists. Her last CT scan came back with no new areas of growth or concern. ***We praise the Lord for His great blessing***, for His continued healing during her cancer journey. We have both been well and had no health concerns during the past months....just getting older.

Sharon has been involved in various ladies Bible studies during the past several months. And then occasionally enjoys taking care of the babies in the nursery. We are also heading up a monthly luncheon ministry to the Senior Adults at our church.

We continue to be very busy caring for grandbabies each week. It is a great blessing to have our family all close to us! Many of our friends and family joined us as we celebrated our 45th Wedding Anniversary recently. We are so thankful for the tremendous reminder of the Lord's faithfulness and blessing in our lives. God is so good!

The past few months, Doug has been teaching a Men's Bible Study on ***the Life and Ministry of the Apostle Paul***. He has thoroughly enjoyed studying the life of this amazing servant of God. Almost all of the materials he has written are in English and he has begun translating it all into Spanish as he is scheduled to do an eight-day module at the Seminary in Santiago in March and will be preaching several times at one of our former churches.

Doug is also teaching a class on ***Bible Interpretation*** each Sunday morning until the end of the year at our local church. He is training younger men from the church to teach the Bible

and be ready to preach also. It is something he greatly enjoys, just as he did for all the years we were in Chile.

Over the years, many of you have generously blessed us with a personal gift at Christmas through ABWE. However, due to new IRS regulations, ABWE is no longer able to process personal

gifts. If you desire to send a personal gift, it may be sent to us at the address below. Thank you so much for your continued prayers and the support that comes from many of you.

Continuing to serve with joy,

Doug and Sharon Kreeger
